PETITION TO CORRECT UPDATED FILING RECEIPT

Sir:

On June 4, 2001, the U.S. Patent and Trademark Office ("PTO") mailed us an Updated Filing Receipt in connection with the above-mentioned patent application.

The Updated Filing Receipt currently reads in part as follows:

Filing Date: 03/12/2001

**Please correct the Updated Filing Receipt so that it reads in part as follows:**

**Filing Date: 12/26/2000**

Please correct your records to reflect the above information and then forward us an Updated Filing Receipt.

A review of the prosecution history shows that the correct filing date is clearly December 26, 2000 and not March 12, 2001. Clearly a clerical error was made by the U.S. Patent and Trademark Office ("PTO") in preparing the updated filing receipt and inserting the wrong filing date. **The Official Filing Receipt mailed March 12, 2001 set forth the correct filing date of December 26, 2000. The updated filing receipt first set forth the error.**

On July 3, 2001, Attorney for applicants filed a Request to Correct Filing Date to correct the filing date from March 12, 2001 to December 26, 2000 for the above-captioned patent application. Applicants have not received a response from the PTO to that Request.

Enclosed is a photocopy of the Updated Filing Receipt marked with the appropriate corrections and a photocopy of the Official Filing Receipt showing the correct filing date of December 26, 2000.

On even date herewith, applicants are paying the issue fee.

Respectfully submitted,

BLAKELY, SOKOLOFF, TAYLOR & ZAFMAN LLP

**LICENSE FOR FOREIGN FILING UNDER  
Title 35, United States Code, Section 184  
Title 37, Code of Federal Regulations, 5.11 & 5.15**

**GRANTED**

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

**NOT GRANTED**

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15 (b).

**PLEASE NOTE the following information about the Filing Receipt:**

- The articles such as "a," "an" and "the" are not included as the first words in the title of an application. They are considered to be unnecessary to the understanding of the title.
- The words "new," "improved," "improvements in" or "relating to" are not included as first words in the title of an application because a patent application, by nature, is a new idea or improvement.
- The title may be truncated if it consists of more than 500 characters (letters and spaces combined).
- The docket number allows a maximum of 25 characters.
- If your application was submitted under 37 CFR 1.10, your filing date should be the "date in" found on the Express Mail label. If there is a discrepancy, you should submit a request for a corrected Filing Receipt along with a copy of the Express Mail label showing the "date in."
- The title is recorded in sentence case.

Any corrections that may need to be done to your Filing Receipt should be directed to:
